

# **PROGRAMMING TECHNIQUE 2 PROJECT**

## **GROUP INVOLVEMENT**

**Second Draft**

**Name : Muhammad Hafizh Herti Arrabbani**

**Metric : A19EC0261**

I'm responsible for writing some of the header file and their implementation. I'm also responsible for writing the add function for Undergraduate, Postgraduate, Lecturer, and Staff. I write 1 display function for Undergraduate to check whether the code have work perfectly or not. I'm also the one who is responsible to update the UML class diagram because we encounter a problem in add function that will need additional function in the class header.
