heyy, sorry for sending message this late, hope u read it in the morning or afternoon. I've finished the UML for the second draft and also some of the code but not all, i've tried creating some of the class header but it sure is a lot hahahah xD. Can u help me to continue write it based on the UML, if you don't know the implementation it's okay, i can write it. i just need someone to ease the job to write the class and it's function xD. i've marked the place where u can start writing the header. Do inform me if u have finsihed so i can conitnue writing function for the main program. Thanks in advance

Okay, bro .. Insha Allah. 7:18 am 

I would try my best to continue with that.

7:18 am 

thank you so much too. 🥺🙌

7:19 am 

Ok inform me when it's done 11:38 am

Okay, that's for sure. 🙌 11:40 am 

bro are u able to finish by tomorrow before 6 pm, just send me what u can if u don't finish all, it's fine. I want to continue on doin the other main function to see wheter it works or not

10:43 pm

sorry to burden u btw 10:43 pm

Okay, broo ..
I will try my best to do what I could ..

10:44 pm 

then, send to you around 6.00 pm
tomorrow ..

10:44 pm 

okay, thanks a lot 10:45 pm

no problem, broo ! 🙌 10:45 pm 

the main thing u need to do is list all the
class and it's function, the implementation
can come second

6:10 pm

hmm i seem to find a trobule here 6:10 pm

in the addundergraduate function 6:10 pm

if we can find the solution for this everything
will be done 6:10 pm

i can't make dynamic memory allocation
6:10 pm

found the solution 10:00 pm

hey can i get ur github account name so i can
add it 10:03 pm

YESTERDAY

really sorry for the late replied, broo ..

that's for sure, bro ..

let me figure out what's my last password was ..

have u got it yet ?

5:15 pm

i think u can do the display function

5:15 pm

i alredy did one

5:15 pm

just to check

You

I have a project presentation for another subject this afternoon ..

oh okay, no rush, take ur time

7:02 am

Okay, broo .. 4:14 pm 

that means, the display function from the main menu right? ..

4:15 pm 

Yeah, there's 3 left 5:02 pm

Display for posgraduate, lecturer, and staff

5:02 pm

U can refer to the undergraduate one 5:02 pm

Okay, broo ..
will try to refer and follow that one for other 3 ..6:58 pm 

this part right? ..

7:44 pm 

You

 this part right? ..

yep, u can refer to this 7:45 pm

can u also help prepare for the second submission. I'm gonna edit the UML first.

Okay, broo .. that's noted. 10:46 pm ✓✓

like how we do in the header file right? ..

10:46 pm ✓✓

yep 10:48 pm

maybe for some implementation u can do it too, like the get one, it's just a return function after all

10:49 pm

18 JUNE 2020

Okay, broo .. the get functions.
that's noted.

12:08 am ✓✓

broo .. I have tried my best. 7:10 pm ✓✓

even though I could understand the flow of our program, but I am not sure with the implementation.

9:10 pm ✓✓

I have added the display function and tried to compile ..

9:11 pm ✓✓

no errors found.

9:11 pm ✓✓

but, I need your help to check and go through the implementation ..

9:12 pm ✓✓

try to run the program ..
manipulate data and screenshot the output.

9:13 pm ✓✓

so, I can include that screenshot as well into our 2nd draft ..

9:13 pm ✓✓

meanwhile, I will take the screenshot of our WhatsApp conversation ..
for the individual evidence of involvement submission.
