PROGRAMMING TECHNIQUE 2 PROJECT

GROUP INVOLVEMENT

Final Draft

Name : Muhammad Hafizh Herti Arrabbani

Metric : A19EC0261

In this draft I created the write, read, and search function. I also manage to complete all of the function that I wrote and now they are working perfectly fine. I also help my group member finish his work on the delete function. I updated the UML to be able to do the specific task in my function that I wrote. I'm also responsible for updating the Flowchart and Object Orientation Implementation in our code. I have tested the program and now it's perfectly fine.
